

CONCAVE

# CONCAVE

Developed for launch at the London Design Festival, CONCAVE is a light that captures the striking formations of stalactites and cavernous rock formations and transforms them into a pendant that can be modularly joined together to create varying arrangements.

Constructed of a pre-cast glass polygonal structure embedded seamlessly within a solid cap with a hidden LED, the angular glass refracts light down the pendant.

## SPECIFICATIONS

**Price:** 750 GBP exc. VAT

**Dimensions:**

Short: 510mm (h) x 60mm (w)

Long: 660mm (h) x 60mm (w)

**Finishes:** Brass, Steel, and Powdercoated RAL

*\* bespoke finishes available on request*

**Light Source:** OLED Panel

**Temperature :** 3000K or 4000K

**Voltage:** 8.5v (3000k) or 6v (4000k)

**Brightness (Lumens) :** 75

**Dimmable :** Yes
