

TATAMI

# TATAMI

Developed as a table lamp for restaurants and bars, TATAMI resembles a jewel-like stone - drawing a direct dialogue with the famous Tatami rock formations found on the Japanese coastline.

Formed in a pre-cast mould, the glasswork sits atop an integrated LED base from which the Tatami jewels can grow and duplicate. Creating a light sculpture for a central table or a bed-side table lamp.

## SPECIFICATIONS

**Price:** 600 GBP exc. VAT

**Dimensions:** 510mm (h) x 60mm (w)

**Finishes:** Brass, Steel, and Powdercoated RAL  
*\* bespoke finishes available on request*

**Light Source:** LED Walkover Light, IP65
